Leader 35 mm and 16 mm

KODAK Color Positive Leader SO-227

Developed on an acetate base, which allows easier splicing to negative film. SO-227 does not have remjet, which allows it to be used with the ECP-2D Process.

Test Film 35 mm and 16 mm

KODAK KEYCODE Numbers Transfer Verification Film SO-675

Provides you with a precise means to set up your reader of KEYCODE Numbers and verify the accuracy of your KEYCODE Numbers / time code transfers. This film can quickly help you determine if your system is reading KEYCODE Numbers accurately; calculate reader delays introduced by noise reduction; adjust the offsets when you switch between 35 mm and 16 mm reader heads; reestablish proper calibration and offsets following routine maintenance; check video editing systems for frame and field accuracy, and much more.

■ **KODAK Color Positive Leader SO-675**

35 mm			1380823	1
16 mm			8096869	1
Super 16 mm			1553650	1

Control Strips

Sensitometrically exposed film strips for photographic process color purposes. Packaged with each can of control strips is an instruction sheet, containing user information and correction factors, and a processed reference strip, to be used for deriving aim values. Each 100 ft roll contains at least 120 exposures spaced at 9.5 in intervals. Since there is no physical indentation or notch on the film to determine the beginning of each exposure, approximately 19 in of film will contain one complete sensitometric strip. Rolls should be purchased directly by the ultimate user and must be stored at 0°F (-18°C) until the time of actual use.

For Positive Type Films

■ **KODAK VISION Color Print Control Strips**

Available in 100 ft rolls in both 16 mm and 35 mm widths. Each sensitometric exposure has 21 gray scale steps at 0.15 Log H increments.

ECP-2D	16 mm	100 ft roll	8208498	1
ECP-2D	35 mm	100 ft roll	1561323	1

For Negative Type Films

■ **KODAK VISION2 Color Negative Control Strips**

Available in 100 ft rolls in both 16 mm and 35 mm widths. Each sensitometric exposure has 21 gray scale steps at 0.20 Log H increments.

ECN-2	16 mm	100 ft roll	1520444	1
ECN-2	35 mm	100 ft roll	1520469	1

For Reversal Type Films

■ **KODAK Control Strips / VNF-1**

Available in 100 ft rolls, in 16 mm width only. Each sensitometric exposure has 11 gray scale steps at 0.30 Log H increments.

RVNP	16 mm	100 ft roll	1227263	1
------	-------	-------------	---------	---

■ **KODAK TRI-X Reversal Control Strips**

KODAK TRI-X Reversal Control Strips are made on KODAK TRI-X Reversal Film 7266 and are designed for use with new KODAK B&W Reversal First Developer Replenisher and KODAK B&W Reversal Bleach and Replenisher. Each sensitometric strip has 11 gray-scale steps at 0.30 log H increments. The new control strips will include a reference strip and instructions with a correction factor.

Equipment and Supplies

KODAK Telecine Calibration System 1001-V

Digital post production tool that allows you to transfer more image information than ever before. With vastly improved image quality and consistency, it captures all the information from KODAK Color Negative Films automatically, minimizing the need for re-transfers. It delivers a more accurately calibrated baseline image for colorists to add their creativity to. Included are load-up tables with characteristics for the complete family of KODAK Color Negative Films. Combined with our proprietary color management software, this system lets you achieve wider dynamic range, more accurate contrast levels, greater overall image consistency, and more satisfied customers.

Safelight Lamps

KODAK Darkroom Lamp

Can be used in wall socket or from drop cord socket. Accepts a circular 5.5 in filter (not included), which is held in position in the lamp base by a molded lock ring. Sturdy metal construction with a pebbled gray finish. Uses a 15 watt bulb (not included). 110-220 V, AC or DC (UL approved).

KODAK Darkroom Lamp / Accepts circular 5.5 in filter	1521178	1
-Low net, min/mult order quantity		6-+

KODAK Adjustable Safelight Lamp, Model B

With its double-swivel shank and bracket, it can be attached to a wall, shelf or bench and swung or tipped allowing light to be moved as needed. Uses 15- or 7.5 watt bulb (not included) depending on sensitized material and safelight specifications. Holds a 5.5 in circular filter (not included). Supplied with bracket and 6 ft cord set with 2 prong plug. 110-125 V, AC or DC (UL approved).

KODAK Adjustable Safelight Lamp, Model B / Holds circular 5.5 in filter	1412212	1
-Low net, min/mult order quantity		6-+

KODAK Utility Safelight Lamp, Model D

Suspends from the ceiling for direct or indirect illumination. A support chain and 6 foot, 3 wire grounded cord set (without switch) are provided. For connection directly to a grounded outlet with remote switch control. Holds a 10 x 12 in safelight filter (not supplied). Use with bulb of recommended wattage (7.5, 15 or 25 W). Lamp can be positioned on wall, table, or workbench using the Bracket for the KODAK Utility Safelight Lamp CAT No. 1521194.

Safelight Filters

The following safelight filters are used in connection with handling various types of motion picture films. For specific recommendations on each film product, suggested bulb sizes, safe working distances, and restrictions covering the use of safelights, reference should be made to the individual specification sheet for each film product. Orders can be placed through KODAK Entertainment Imaging Customer Service Phone (800) 621-3456 or FAX (800) 755-1816.
